

ONLINE NEWS CLUB

Acharya Arts and Science College enriches & encourage the students to come out with creative ideas by promoting them in all ways to stand independently along with the academics. This notion, motivated the students of Biotechnology to start an '**Online News Club**' on behalf of '**BIOCOSMOS club**', under the aegis of Department of Biotechnology.

This club was **officially started on 7th July, 2021 (Wednesday)** through the social media platforms such as Instagram & Facebook but the inauguration & other procedures were started from 10th June,2021. Initially, it was started with the envision for promoting the entertaining activities among the students but later it got upgraded smoothly and now it became the **Knowledge-hub** for sharing the information exclusively, pertaining to the field of Life Sciences.

AIM – to engage young biotechnologists to practice a teamwork from the UG level, to develop their specific skills along with the enriching them to gain the knowledge in various streams of life sciences, to be aware, to get involved in smart work and to develop their freedom of expression.

MOTO – to promote the student centric activities

SOURCES – Information are pooled together only from the verified sources (official websites/publications) of various science related organizations, Journals and magazines.

BENEFITS –

1. Activities became add-n points in the CV of the students.
2. Upgrades the students to get the basic ideas about new technologies.
3. Promotes the communication & understanding skill.
4. Improve the social skills.
5. Boost the interests of the students in the field of life sciences.
6. Builds teamwork, creativity, critical thinking and more...
